Summary

I am a passionate and quick-learning software engineer with around 1.5+ years of professional experience in developing frontend systems with vanilla javascript and typescript. I am skilled in and use React, React Native, Next.js, Redux to develop web and mobile applications.

Work Experience

Software Engineer, Jaxl Innovations
June 2021 - Dec 2022

- Worked on different frontend modules, using Vanilla JS/TS.
- Maintained modular architecture using npm.
- Worked and maintained reusable and scalable Components.
- Created multiple components which are responsive across different viewports

Projects

Web Playgrounds (React) https://web-playgrounds.netlify.app/
- Created an IDE for HTML, CSS and JS using React.js
- Used React Context for global state management.

Instagram Clone (React Native) https://github.com/chandninigam/Insta-ui
- Built the Instagram UI clone using React Native.
- Used React Native's Dimension API for responsive UI

Skills
